"Rewind"

Visit "[Rewind](#)" on MotoLyrics.com

Shawty, sit back and just listen
We got this far, but we're having some issues
You see,
It's this other girl he told me about,
It's a new cashier at the supermarket down the block
from his house.
Where at first started with e Hey! and started seen her
everyday
And now we can't go back,
It's too late!
I'm sure we won't sit well, where he's sat in
Every night while he hold her tight,
He would start to tell, but it won't come out
Cause he won't say what it could break her heart
As it's something he can't face
If you could just rewind with you
Rewind with you.
Give you everything right this time
Baby, put that on new life,
If you could just rewind, re-rewind
Rewind with you
Rewind, re-rewind
Rewind with you.
Give you everything right this time
Baby, put that on new life,
If you could just.

Rewind the past, maybe he'd learn his wild life
Nobody ever had, knowin' what she at least deserves
That, and if she believed it
Everything that he did, he didn't mean it
And maybe, she'd give him one more chance
And tryna get over it.
She wouldn't leave him, pack her things and run away
But it won't happen that way.
Life would be too easy if we? had no price to pay.
Every night while he hold her tight,
He would start to tell, but it won't come out
Cause he won't say what it could break her heart
As it's something he can't face
If you could just rewind with you

Rewind with you.
Give you everything right this time
Baby, put that on new life,
If you could just rewind, re-rewind
Rewind with you
Rewind, re-rewind
Rewind with you.
Give you everything right this time
Baby, put that on new life,
If you could just.

Girl, I know you won't do me wrong, wrong
Know you'll love me with all your heart
OH, Baby
That secret is all I really need
Do you, girl I'm such a fool
Sorry baby
But I got to break it too you
Remember that girl I told you...
Rewind, re-rewind
Rewind with you.
Give you everything right this time
Baby, put that on new life,
If we could just.
Rewind, re-rewind
Rewind with you.
I'd do everything right this time
If we could just, if we could just
Uh, aaah
I'm so sorry
