Verse 1:

U looked me in my face
Had the nerve to say
That guy that called u on your cellphone
Wasn't at your place
The stupid the things u do
U gots to be a fool
U took my love for granted
Now i'm takin' it back from u

Hook:

How could u straight up lie
I thought u were by my side
Now I know what 2 think of you
Here's 2 words I'd like to sat 2 u:

Chorus:

Hell No
I don't need your shit
I'm not gonna be your toy
U can keep my bling
Tough shit I see u full of it
I'm not gonna be yo man
I don't care about your titts

Verse 2:

I must admit I got caught up in yo web
To the night we were makin' love
And u called someone else's name
What the fuck who's the nigga
That u sleepin wit
I really got's to know right now
Cus somebody else gots 2 feel me

Repeat Hook & Chorus

Bridge:

I can do without u I don't really need a thang
I gave u all my love I had
U kept me on a string
Just to think that I loved u
What the hell was on my mind
I'm a bib boy and I'm gonna be alright
It's time for me 2 shine

Repeat Chorus

Outro:

I don't need you
I don't want you
You can leave now
So loooong
