(Intro)

I

Just when I see you all around deep inside want to be in
your ground,
I know in your eyes I'm just a crowd and I'm one of
those whom you don't
Count...

Refrain:

Every moment you smile at me unbelievable was that
for me,
The image of your face sticks on my mind and when I
remember everything
Turns fine...

Chorus:

Every second that we spend together is all that I
treasure forever,
Even though we're far apart with every beat of my
heart... I love you...

II

It's just unexplainable making my heart feel light and
easy,
And don't know if you feel the same way but for me the
ideal girl is
You...
