(INTRO)

I

Once upon a time I saw a girl, a girl who's very nice that
to see,
I stared at her 'til she looks at me, her eyes was full of
shining stars,
And that girl is you, I can't control myself staring at
you.

CHORUS:

From that time I've still thinking of you, the only one
who fills my is you,
Everyday you're my inspiration, everyday I've been
always following you,
I think I love you, I hope you love me too.

II

Your eyes always catch my attention, you came to me
and I felt so nervous,
I can't move and I felt myself so cold, if you smile I feel
so very light,
And I know you know, that I always love you more and
more.

(CHORUS)

BRIDGE:

Oh I'm still thinking of you, I think I'm in love with you.
