Verse 1

Baby I love you, don't get me wrong.
But I hate the way you always seem to tag along.
I think I might just need some alone time
Cuz loving you is easy but killing you is on my mind.

Chorus 1

Hey baby don't take me seriously.
Well it's not like I'm gonna do something while you sleep.
I think I might just need some alone time
Cuz loving you is easy but killing you is on my mind.

Verse 2

Been working all day just to take you out at night,
But all you wanna do is nag and prove how you're right.
Well you're right,
It's gotten to where I don't wanna come home at five.
Cuz loving you is easy but killing you is on my mind.

Bridge

Oh but here you go looking so damn fine.
You always have a way of changing my mind.

Chorus 2

Hey baby I hope you take me very seriously.
The only thing I wanna do is love you before we sleep.
So come to bed and turn down the lights
Cuz killing you is easy but loving you is on my mind
