I got a dog named Luna
Has anyone seen her around?
Whatever happened to Luna
Has anyone seen her around?
Luna where are you baby,
Luna, Luna!

Luna's got them low down blues.
Luna has got them low down blues!
Luna's got them low down blues!
Luna's got them low down blues!

Mardi Gras is over now.
And it's storming outside.
Luna is afraid hasn't eaten.
Her food is getting cold.
Luna where are you baby,
Luna, Luna!

Luna's got them low down blues.
Luna has got them low down blues!
Luna's got them low down blues!
Luna's got them low down blues!

Luna won't you come out?
Come out from under the bed!
Come out from behind the door!
Luna can't you see when it rains?
Luna can't you see when it rains is time to play:

Play away these low down blues!
Play away these low down blues!
Play away these low down blues!
Play away these low down blues!
