Let it be
Still my anger
Bring me peace
From my temper.
I'm trying every way I can.
I'm doing wrong, I understand.
Let it be
Slow down, watch the pressure fall.
Bring me peace
Slow down, I can't have it, I can't have it all.

Break the strain.
Feed my hunger.
Tell my mind
To be stronger.
I've got to move and make it real.
I've got to make myself a deal.
Break this strain
Slow down, give up what I crave.
Tell my mind
Slow down, watch what I can, watch what I can save.

Will I rise
Out of shadow?
Staying calm,
Feeling hollow.
I'm here to give me one more chance.
That choice is resting in my hands, yeah
Let it be
Slow down, watch the pressure fall.
Bring me peace
Slow down, I can't have it, I can't have it all.
Break this strain
Slow down, watch the pressure fall.
Tell my mind
Slow down, I can't have it, I can't have it all.
