gotta get my hair perfect, every peice in place

keep all the boys cranein' their necks

i'll keep it low cut just in case

we're all so chic

every day of the week

we don't speak to the geeks or the freaks

it's part of our technique

every one's got to belong somewhere

(CHORUS)

Open up your eyes, you are a master of disguise

gossiping with friends, worshiping the fashion trends

that's what it takes to be popular)

on and off the field, most would say, i'm the man

workin' hard on my sex appeal i got, white teeth and a

mighty dark tan

go (go) fight (fight) i guess we're winning

(guess again)

(CHORUS)

masquerade, paper faces on parade

masquerade, hide your face so the world will never

find you

masquerade, every face a different shade

masquerade, look around there's a nother mask

behind you

(CHORUS)
