She's too young for the lesson  
why daes she sell herself for what she  
needs?  
is it freedom of choice, does it really matter?  
or is she forced  
by her society?  
dear simone do you find the answers  
in selling your body  
for the green?  
dear simone is it worth the life you live?  
dear simone is  
there is love what you give?  
she's got it good in the making  
all she  
needs is just a little time  
she gives it up now, gives it up for the  
taking  
any man who wants to stay awhile  
dear simone do you find the  
answers  
in selling your body for the green?  
dear simone...  
now dear simone has a broken heart  
and she feels something deep inside  
she sees  
that life was in front of her  
the life she now has to push aside  
and dear  
simone has a broken dream  
she sits alone with herself on her mind  
was it  
for pleasure or for the green  
was it worth it for that better life
