It's so amazin  
you might think it's crazy  
but I've got to tell you this  
ever since I met you  
I never could forget you  
you brought me endless  
bliss  
I want to turn you out  
and do it everyday  
you give me so much  
good,good lovin' everyway  
I want to connect you  
baby, I'll respect you  
you're the only one  
I'm so into you, so happy to be  
so much in love, it  
feels so good  
It's a sin  
wake up in the morning even if it's storming  
you can get the sun out to shine  
won't you take a listen you got me  
wishing  
every girl could be this fine  
I want to turn you out and do it  
everyday  
you give me so much good,good lovin everyway  
oh baby shake me I  
love it when you take me  
to where no one's been before  
I'm so into you,  
so happy to be  
so much in love, it feels so good  
It's a sin
