Hey these nights are fashioned around you  
I guess the bitter of path of love is no longer haunting  
you  
Come, spring a new  
My heart's still blue

I've been sittin' around waiting for you to perform  
Sing a song to me  
Because I'm bored  
You bore me, you bore me, you bore me, you do  
You make me wanna run away from you

These days hold me as I dwell in love  
And I lie without a lover  
And these days are cold  
I'm in your spell of lust as I lie without a lover

Now the nights are days  
I'm dazed  
I feel that you are just a heart away  
You're fine  
That you are  
Do you wanna love me  
Yes I love you for a thousand days

Oh love sweet love I know there's a way  
To help us both become one flame  
Yeah, your hand it caresses all  
To a place which appears  
Will you run with me here?

These days hold me as I dwell in love  
And I lie without a lover  
And these nights are cold  
I'm in your spell of lust  
As I lie without a lover

Now the nights are days  
I'm dazed  
I feel that you are just a heart away  
You're fine  
That you are

Do you wanna love me  
Yes I love you for a thousand days

Oh love sweet love I know there's a way  
To help us both become one flame  
Yeah, your hand it caresses all  
To a place which appears  
Will you run with me here?

And I lie without a lover  
I think that every time you're swingin' it  
You're swingin' it for me  
I want to surround you with yourself and  
Your fading reputation

Now the nights are days  
Some days I feel that you're just a heart away  
You find that you are  
You wanna love me  
Yes I love you for a thousand days

Oh love sweet love I know there's a way  
To help us both become one flame  
Yeah, your hand it caresses all  
To a place which appears  
Will you run with me here?
