

Robi Draco Rosa **"Mourning Gun"**

Visit "[Mourning Gun](#)" on MotoLyrics.com

Here we are like the gun in the snow and we're going in
time
Morning comes and I feel there's away yet I don't really
know

If it is you that I love when alone
But I know tomorrow is gone
Maybe there's no time to reframe
Our lives have become morning dawn
Gotta gotta feel my disease
Got misfortune crawling under my sleeve
The king of faith is calling my name
Jackleisa has an needle in me

He said that is far from control and that he knows
She said that an urge to be alive everytime we fly

It is you that I love when alone
But I know tomorrow is gone
Maybe there's no time to reframe
Our lives have become morning dawn
Gotta gotta feel my disease
Got misfortune crawling under my sleeve
The king of faith is calling my name
Jackleisa has an needle in me
Gotta gotta feel my disease
Got misfortune crawling under my sleeve
The king of faith is calling my name
Jackleisa has an needle in me
Got misfortune crawling under my sleeve
Yeah you gotta feel my disease
