"Chorus"

Visit "[Chorus](#)" on MotoLyrics.com

dont want to lose this feeling
dont want to take it back to the source
dont want to break this harp
its taken so long to get it just right
so ill wait

we cant escape this blindside
eyes cant see this coming
we are the first time and the chorus
explanation, asperation, something become
i cant believe it, i cant believe this

headlights and corners fill my mind
so much sweat to fill a paper cup
everywhere i look your standing
dont want to lose to, thats walled
i cant wait

we cant esacpe this blindside
eyes cant see this coming
we are the first time and the chorus
explanation, asperation, something become
i cant believe it, i cant believe this

take it with a smile
it goes with the territory
waking up in wide
im telling what it means to me
ill give you all the time
ill give you all the time you need
but i know you need this

we cant escape this blindside
eyes cant see this coming
we are the first time and the chorus
explanation, asperation, something become
i cant believe it, i cant believe this

take it with a smile
