(verse 1)

Waking up with the cold wind
blowing over my card house
building back my opinions
it's hard to even grasp them when,
everywhere I turn it's so empty,
wanting more from this life so plenty
can I get a second opinion then get back to my life
cause,

(chorus)

oooo seasons changing over,
over and over and
oooo seasons changing over
over and over.
Every time I look out the window ten years go by,
I'm still standing still I don't know why
I just cant get my shit straight
and make necessary changes.

(verse 2)

They say that youth is wasted
on ones who don't appreciate it
but I'm still building my own way
nothing could ever stop me when..

oooo seasons changing over,
over and over and
oooo seasons changing over
over and over.
every time I look out the window ten years go by,
I'm still standing still I don't know why,
I just can't get my shit straight
and make necessary changes

(guitar solo)

oooo seasons changing over,
over and over and
oooo seasons changing over
over and over.

every time I look out the window ten years go by,
I'm still standing here right by your side
why can't I get my shit straight
and make necessary changes

necessary, necessary,
necessary, necessary,
necessary, necessary changes.
