I can see you standing there
Sunlight shining through your hair
And it takes my breath away
You look better every day

Then you run into my arms
And I'm lost in love sweet storm
As you touch me tenderly
I hear heaven's melody

[Chorus]
You're my green eyed angel
Somebody loves me here I know
You're my green eyed angel
I'm holding heaven hear below

When you satisfy the storm
And lay beside me soft and warm
And your fingers trace my cheek
A brand new feeling leaves me weak

[Chorus x2]
You're my green eyed angel
Somebody loves me here I know
You're my green eyed angel
I'm holding heaven hear below
