Into my feelings, love me baby

Love will unchain my heart forever

You know the meaning, baby, time is running

I run to you (run to you)

Into the night, you're burning with fire

In all my life, you will be my desire

I want your love every day, I want your sex every night

Hey, c'mon, I'll bring you true paradise!

Baby baby love me, kiss me kiss me, baby

I will never let you go in my life

Love me love me, baby

Now my heart is ready

I will never make you cry-ay-ay!

Baby baby love me, kiss me kiss me, baby

I will never let you go in my life

Love me love me, baby

Now my heart is ready

We can fly across the sky-ay-ay!
