(Verse)

I came here on the mission,
And I aint leaving here alone
So baby, tell me where to go
Cant make my exit without you.

Your friends dont even know youre gone
You got a man, who needs em now?
Right now its me and you, come on,
Forget these people around you.

(Pre-Chorus)

Were gonna make this all night
Lets keep it going till sunlight.
They try and stop us, we gonna fight
Lets do it all the way wrong till its all the way right.

(Chorus)

So lose yourself in it and say ayo
If youre down with it say ayo
DJ keep spinning like ayo
Cause we aint finished, ayo.

(Verse)

Know you dont wanna miss this, right
I see the burning in your eyes.
Your bodys giving me the signs
No use in you trying to fight it.

(Pre-Chorus)

Were gonna make this all night
Lets keep it going till sunlight.
They try and stop us, we gonna fight
Lets do it all the way wrong till its all the way right.

(Chorus)

So lose yourself in it and say ayo
If youre down with it say ayo
DJ keep spinning like ayo
Cause we aint finished, ayo.

(Bridge)

Now I hope you aint tired,
Cause this fires taking over the floor.
So throw your hands in the air,
Let me hear you say ayo.

(Pre-Chorus)

Were gonna make this all night
Lets keep it going till sunlight.
They try and stop us, we gonna fight
Lets do it all the way wrong till its all the way right.

(Chorus)

So lose yourself in it and say ayo
If youre down with it say ayo
DJ keep spinning like ayo
Cause we aint finished, ayo.
