Completely into you
Discreetly, I will prove
That I can do
What you need me to, for you, for you

I gotta come clean with you, baby
Do anything to make you see
I gotta be with you tonight
The thought of it's consuming me

Your body next to mine
Let's not waste any time
Baby, just give me a chance
We could make some sweet romance tonight

Completely into you
Discreetly, I will prove
That I can do
What you need me to, for you, for you

And now that you are here with me
Every kiss with you is like a dream come true
It's ecstasy

We'll take it even further
If you say that it's okay
Now just let yourself go, we'll take it slow
And let's go all the way tonight

Completely into you
(Oh baby)
Discreetly, I will prove
(Discreetly, baby)
That I can do
(I can do)
What you need me to, for you, for you
(Just for you, oh yeah)

Check it out

Baby, baby, let's dim the lights
Set the mood, I'll make you feel alright

We'll take it nice and slow, I've got to show
The way that love is supposed to go

Completely into you
(Completely, so into you)
Discreetly, I will prove
(Oh baby, baby, I will prove)
That I can do
(Do for you)
What you need me to, for you, for you
(What you need me to, for you)

Now won't you listen to me, girl

Completely into you
(I'm into you)
Discreetly, I will prove
(Discreetly, baby)
That I can do
(Do, baby)
What you need me to, for you, for you
(What you need me to, for you, for you, for you)
