I wanna know who you are?  
The one admirin' you from afar  
You walk by and I get weak in the knees  
I get next to you and I get dizzy, dizzy

The way you look, the way you move  
Your body's tellin' me that I can't lose  
You and me, we were meant to be  
I get next to you and I get dizzy, dizzy

My head is spinnin' round and round  
You got me feelin' like my feet aren't on the ground  
What is this power that you have over me?  
I get next to you and I get dizzy, dizzy

I don't know just what to do?  
I've been in love but this is something new  
You're the one for me it's plain to see  
I get next to you and I get dizzy, dizzy  
(Dizzy, oh no dizzy)

With my eyes open I wanna see your face  
Spendin' my days in your sweet embrace  
Just one night with you can set me free  
I get next to you and I get dizzy, dizzy

You make me think of things to come  
I'm dreamin' being that I'm makin' love  
I don't know what you're doing to me?  
I get next to you and I get dizzy, dizzy

My head is spinnin' round and round  
You got me feelin' like my feet aren't on the ground  
What is this power that you have over me?  
I get next to you and I get dizzy, dizzy

I don't know just what to do?  
I've been in love but this is something new  
You're the one for me it's plain to see  
I get next to you and I get dizzy, dizzy

Down with 98 Degrees

Girl, do you wanna get with me  
'Cause sexually it's plain to see  
That the way you move is makin' me dizzy  
I don't know just what to do?  
I need some lovin' girl to help pull me through  
I'm feelin' you, I know it's true  
I got nothin' but love for you  
So, baby, shake it from side to side  
Your sex appeal can't be denied  
Got just one chance to make it right  
And, girl, you know tonight's the night  
So, baby, up down, all around  
Shake your booty to the ground  
Take my hand and follow me  
'Cause the way you move is makin' me dizzy

My head is spinnin' round and round  
You got me feelin' like my feet aren't on the ground  
What is this power that you have over me?  
I get next to you and I get dizzy, dizzy

I don't know just what to do?  
I've been in love but this is something new  
You're the one for me it's plain to see  
I get next to you and I get dizzy, dizzy  
(So dizzy, yeah)

(Oh you)  
Dizzy, dizzy  
(Oh baby)  
Dizzy, dizzy  
(Oh dizzy baby, dizzy for you, for my baby I'm)  
Dizzy, dizzy  
(Dizzy baby, dizzy for you, oh girl you got me dizzy,  
yeah)  
Dizzy, dizzy
