Verse 1:

She don't wanna wait no more
Ready to get on the floor
It's hot tonight
Calling up all of her friends
Time to burn it down again
And come to light
Look how she do that sexy dance
She got every single man
She got her girlfriends all around,
Looking good and getting down tonight
I really think I love

Chorus:

Girls night out
So many women looking good
In the place right now
Makes my head spin round cause each one is sexy
Help me, I wanna love em all down
Ah, I want that girl, that girl, and that girl
Ah, I want that girl, that girl, and that girl
Girls night out
So many women looking good
In the place right now

Verse 2:

She put on that real tight dress
Cause she wanted to impress, catch my eye
And that one's looking dangerous
But I'm kinda curious, it's not a crime
Look how she move her body slow
And the base is booming low
Got a man about to lose his mind
She got her girlfriends all around,
Looking good and getting down tonight
I really think I love

Chorus:

Girls night out
So many women looking good
In the place right now

Makes my head spin round cause each one is sexy
Help me, I wanna love em all down
Ah, I want that girl, that girl, and that girl
Ah, I want that girl, that girl, and that girl
Girls night out
So many women looking good
In the place right now

Verse 3:

Look at them brunettes and blondes
And every other style women
Short, tall, thick, small
All of them winning
IÂ'll have you all and I, canÂ't get enough
See I could hold every one of you in my arms
Look how she move her body slow
And the base is booming low
Got a man about to lose his mind
She got her girlfriends all around,
Looking good and getting down tonight
I really think I love

Chorus:

Girls night out
So many women looking good
In the place right now
Makes my head spin round cause each one is sexy
Help me, I wanna love em all down
Ah, I want that girl, that girl, and that girl
Ah, I want that girl, that girl, and that girl
Girls night out
So many women looking good
In the place right now
Girls night out
So many women looking good
In the place right now
Makes my head spin round cause each one is sexy
Help me, I wanna love em all down
Ah, I want that girl, that girl, and that girl
Ah, I want that girl, that girl, and that girl
Girls night out
So many women looking good
In the place right now
That girl, that girl, I really love Â'em all
That girl, that girl, I really love Â'em all
That girl, that girl
