(Verse)

Just that look, girl, its all you got to say
I think youre real, girl, just the one you wanna taste.
If you feel and you need it, then make me believe it
And let go, I swear you wont be sorry.

(Pre-Chorus)

Youre second guessing me so sexy,
You know that Ill never tell.

(Chorus)

Hush hush, love is such a bad girl undercover,
You and me, everybody needs a secret.
Hush hush, love to see my good girl for another
You and me, everybody needs a secret.

It feels so good to be dangerous,
Dont lose the rush, baby hush hush.

(Verse)

Girl, youre busted, yeah, I got your name
I can be trusted, just keep playing the game.
You can hide it tonight how you gonna find it
I lay low, do anything you want with me.

(Pre-Chorus)

Thats why you are so sexy,
Dont give yourself away.

(Chorus)

Hush hush, love is such a bad girl undercover,
You and me, everybody needs a secret.
Hush hush, love to see my good girl for another
You and me, everybody needs a secret.

It feels so good to be dangerous,
Dont lose the rush, baby hush hush.

(Bridge)

Give me a sign and I will every need I can fill
If you want me, just pull me closer.

A word from your lips, gotta use fingertips to tell me
you cant get enough,
Its only my touch.

We got a secret and Im gonna keep it
As long as were sneaking theyll never know.
Dont give them a reason, they might hear us speaking
Baby, baby, keep your voice down.

(Chorus)

Hush hush, love is such a bad girl undercover,
You and me, everybody needs a secret.
Hush hush, love to see my good girl for another
You and me, everybody needs a secret.

It feels so good to be dangerous,
Dont lose the rush, baby hush hush.

Hush hush, love is such a bad girl undercover,
You and me, everybody needs a secret.
Hush hush, love to see my good girl for another
You and me, everybody needs a secret.

It feels so good to be dangerous,
Dont lose the rush, baby hush hush.
