(Verse)

I caught myself again laying in bed starring at your picture

I told myself I wouldnt do that anymore.

The afternoon is my morning, its almost 4PM

Before I get up and drag myself out the door.

Its like my whole world is in slo-mo

And I lost the one thing that made it go.

(Chorus)

So now I just walk around, reliving that moment

Over and over and over again

Im so lonely.

If I knew then what I know now

I wouldnt keep calling and hanging up

Over and over and over again

Cause Im so lonely.

(Verse)

The answers always seem to come after the damage is done

Lifes little way of laughing in your face.

I cant unbreak the broken heart

So I sympathize by let me fall apart.

(Chorus)

So now I just walk around, reliving that moment

Over and over and over again

Im so lonely.

If I knew then what I know now

I wouldnt keep calling and hanging up

Over and over and over again

Im so lonely.

(Bridge)

And punishment I deserve for what I did

Anything but this.

Baby, slap me in my face, ignore me for three days,

But please dont go and stay away.

(Chorus)

So now I just walk around, reliving that moment

Over and over and over again

Im so lonely.

If I knew then what I know now

I wouldnt keep calling and hanging up

Over and over and over again

Im so lonely.

Lonely, lonely, lonely, lonely.
