(Verse)

How could you tell me Im not crazy over you?  
I gave you my money when your bills were overdue  
Aint got no time for all this mess you put me through  
You make me sick, its like you gave my heart the flu.

(Pre-Chorus)

Now Im chilling cause you turn me go  
Bye-bye, stay left to the exit door.

(Chorus)

I want no part of you, no part of you,  
No part of you, no part of you.  
I burnt every bridge so theres no coming back to you.  
I want no part of you, no part of you,  
No part of you, no part of you.  
No, I wont say good bye, theres no thing good about  
you.

(Verse)

You wear your boots like its written on your sleeve  
I hang my head because I failed for your disease.  
A stupid fire burnt me to the third degree  
So I wish I could wake up and youd be just a dream.

(Pre-Chorus)

Now Im chilling cause you turn me go  
Bye-bye, stay left to the exit door.

(Chorus)

I want no part of you, no part of you,  
No part of you, no part of you.  
I burnt every bridge so theres no coming back to you.  
I want no part of you, no part of you,  
No part of you, no part of you.  
No, I wont say good bye, theres no thing good about  
you.

(Bridge)

Oh, Im not crazy, am I?  
And oh, its too late for next time.

(Chorus)

I want no part of you, no part of you,  
No part of you, no part of you.  
I burnt every bridge so theres no coming back to you.  
I want no part of you, no part of you,  
No part of you, no part of you.  
No, I wont say good bye, theres no thing good about  
you.

How could you tell me Im not crazy over you?  
Gave you my money when your bills were overdue.  
How could you tell me Im not crazy over you?  
You make me sick, its like you gave my heart the flu.
