### "Not Enough"

Visit "[Not Enough](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Talk talk talk it's all we ever do  
Ambition stuck in a mental sieve  
It's not enough to be the reaction  
Find a better way to live

Take take take it's all we ever do  
Give 'till it hurts 'till you give  
Think of someone else besides you  
Find a better way

You don't have to look too far to find a saving grace  
Everyone of us can make a world a better place

Talk talk talk we hear from all the factions  
But advice is all they give  
It's not enough to be the reaction  
Find a better way to live

Take take take we want it all  
But in the end we'll pay for it  
Think of someone else besides you  
Find a better way to live

You don't have to look too far to find a saving grace  
Everyone of us can make a world a better place  
If you think the world isn't perfect as it is  
Then why aren't you busy perfecting it?

It's not enough to be the reaction [3x]  
Find a better way to live

Now's the time to make a difference  
Do more than the status quo  
No more more words it's what you do  
Time is now come on let's go
