I love it when the light reflects on your beautiful brown
eyes
But lately when we fight it leaves me so messed up
inside
I know your every movement, every step you take
My heart aches

Chorus:

And now I can see that you need me
As much as I need you, can't sleep
Because I can see that you need me
As much I need you
I'm not sleeping without you

I guess I'm out of touch
Can't keep up with all this love and lust
Can't take this anymore
I guess that you're my only cure
And now I sit here with your letter by my drawer
Now I'm sure

Chorus:

And now I can see that you need me
As much as I need you, can't sleep
Because I can see that you need me
As much I need you
But these feelings they keep growing strong

Chorus
