I feel like something's going down
Too many things that I can frown upon
And I don't, like to feel that way

You say don't walk before you crawl
Don't trust in anyone at all
And I don't, like to feel that way
No I don't, like to feel that way

Chorus:

'Cause I'm falling in too deep
But I don't care I won't be holding on
And I'm caught up losing sleep
But I don't care I won't be holding on
Sometimes it's hard to breathe
'Cause no one cares about you when you're gone

You say keep both feet on the ground
But my head is so caught up I'm drowning
And I don't, like to feel that way
No I don't, like to feel that way
Chorus

I don't wanna think of yesterday
Tomorrow's getting in the way
So many things I've got to say, yeah

Chorus:

'Cause I'm falling in too deep
But I don't care I won't be holding on
And I'm caught up losing sleep
When I don't care I won't be holding on
Sometimes it's hard to breathe
When I can't see the light ahead
Somebody give me wings so I can fly

I won't be holding on
I won't be holding on
