We need a better way  
to get my head straight  
It's not like anybody would know  
Got a silver cloud high above me  
Running circles around and around me

turn it up again were gounq no where  
let the sound surround everyone  
Play the static with the noise in my head  
let the sounds surround everyone

Go off the deep end  
I've got nohting to prove  
I've got nothing better to do

I'm so happy  
So fucking happy  
That i'm far from the glare of the city

Chorus

better way 3x  
I need a better way

I heard the white noise  
the waves of radiation  
They're falling from the sky

Chorus 2x
