They say your home is where you are from  
And you will know until you're gone  
But I won't believe it  
Cause I use to be all alone  
And this world is not my home  
I need to move on I'm drowning  
Can anybody help me it's so addicting  
Can anybody help me

(Chorus)

Cause I'm going out of my mind  
Can somebody tell me  
How to move on with this life  
And truly be free  
I'm going crazy trying to  
Find my way again  
I gotta leave it all behind me Oh oh oh  
Gotta leave, gotta leave it all behind me Oh  
Gotta leave, gotta leave it all behind me

It's hard to know what is to be  
I can't erase it from my memory  
Even though I'm trying desperately  
I'm reminded that every time you cry  
How I've wasted so much life  
Oh God forgive me  
Can anybody help me  
And make this sinner clean  
Can anybody help me Yeah

(Chorus)

Cause I'm going out of my mind  
Can somebody tell me  
How to move on with this life  
And truly be free  
I'm going crazy trying to  
Find my way again  
I gotta leave it all behind me Oh oh oh  
Gotta leave, gotta leave it all behind me Oh  
Gotta leave, gotta leave it all behind me

God wake me from my grave  
You already took my place  
The old me has passed away  
And now I'm another's  
Same forever changed

Cause I'm going out of my mind  
Can somebody tell me  
How to move on with this life  
And truly be free  
I'm going crazy trying to  
Find my way again

(Chorus)

Cause I'm going out of my mind  
Can somebody tell me  
How to move on with this life  
And truly be free  
I'm going crazy trying to  
Find my way again  
I gotta leave it all behind me Oh oh oh  
Gotta leave, gotta leave it all behind me Oh  
Gotta leave, gotta leave it all behind me  
Gotta leave, gotta leave it all behind me Oh  
Gotta leave, gotta leave it all behind me
