Once I had true love but now I have none  
Once I had true love and now I have none  
He's gone and leave me, he's gone and leave me  
In sorrow to mourn

Last night in sweet slumber I dreamed I did see  
Last night in sweet slumber I dreamed I did see  
My only? true love come passing by me  
My only? true love come passing by me

But when I awoken I found it not so  
But when I awoken I found it not so  
My eyes like fountains with tears overflow  
My eyes like fountains with tears overflow

My true love is married or otherwise dead  
My true love is married or otherwise dead  
His bunch of blue ribbons I'll wear round my head  
His bunch of blue ribbons I'll wear round my head

I'll then search through England, through France and  
through Spain  
I'll then search through England, through France and  
through Spain  
My life I will venture o'er the watery main  
My life I will venture o'er the watery main
