I see the ocean blue
Clear as my love for you
Two birds lie in the sky
With you in paradise

Before you came along
I was so all alone
You're like a new beginning
Heavy as a spirit

I know that when you look at me, boy
You feel a sparkle
You see, I think I hear your soul here
You're special, love me

Share my love
Won't you let me give it all to you?
Share my love
Cos I'll never give you up, my baby
Share my love
Know my life was only 'bout you
Share my love
Can't you see you mean the one to me?
Share my love
Can't you let me give it all to you?
Share my love
Cos I'll never give you up, my baby
Share my love
Know my life was always 'bout you
Share my love
Won't you take me in your whole life to me?
