Some say it's the wind that
Brings them in A Skeleton CrewCrew

All holding cans of cold brew

A disappearing wind A
Skeleton Crew
All drinking there brew
Chanting it's the wind that brings them in
Yeah it's been awhile since anyone TV
Had seen a skeleton crew twelve cans
Of brew start poppin open eveyone
Knew the wind had brought them in
The disappearing wind promising them they would
.ever see a skeleton crew back here again
Everyone heard the cans I
Of cold brew poppin no way of stoppin
A skeleton crew
