Searching for someone so long  
To fill in this hole in my heart  
I've tried everything I could find  
Nothing could set me apart  
I've been searching for all my life  
I know there is no one like you

Looking back over the years  
Wasting so much precious time  
All of the heartbreak and tears I've cried  
Lead me to this place in time  
I've been searching for all my life  
I know there is no one like you

I'm walking in paradise  
My heart is in heaven as long I'm with you in paradise  
I'm walking in heaven with you  
Forever my heart will be true

Surrendering all that I am  
I know that you're faithful and true  
Taking me so far beyond my dreams  
Anything I ever know  
I've been searching for all my life  
I know there is no one like you

I'm walking in paradise  
My heart is in heaven as long as I'm near you in  
paradise  
You're all I believe in forever we'll stay here in paradise  
I'm walking in heaven as long as I'm with you, paradise,  
Forever in heaven with you  
Always my heart will be true  
Paradise  
I'm walking in heaven as long as I'm with you, paradise,  
I'm walking in heaven with you  
Forever my heart will be true  
Forever I'll share life with you  
Always devoted to you
