"Cool Bug Rumble"

I got a cool bug rumble and she's over the floor
I got a cool bug rumble and she's open for more
And I'm stroking her familiar
Behind the kitchen door
I said, "Honey, ride me home."

I got a cool bug rumble in a shower of sparks
I got a cool bug rumble with her face in the dark
I got a cool bug rumble and her name don't end with a
bark
I said, "Honey, ride me home."
She said, "Yes I'll ride you home."

I got a cool bug rumble -- you can picture the scene
I got a cool bug rumble -- and I'm somewhere between
I got a cool bug rumble -- and she rides a vertical bean
I said, "Honey, ride me home."
She said, "Yes I'll ride you home."

Human beings can get ugly in this world
When I look into your eyes
I feel just like a girl
I got a cool bug rumble and I'm deep in her hair
I got a cool bug rumble and I'm somebody there

And we're lying on the carpet
With our legs up in the air
I said, "Honey, ride me home."
She said, "Yes I'll ride you home."
Exterminator -- pass me by!
