Here is a knife
Here is a pointy daggery knife
Here is a knife
And it's pointing to you
Here is a life
Here is a tender trembling life
Herre is a life
And it's quivering under you
Here is a dream
Here is a sweet and terrible dream
Here is a dream
And we're in the middle of it
Oh come off it-not again-do we have to go through all
of this again?
All of this again
Here is a knife
Here is a pointy daggery knife
Here is a knife
And it's pointing to you
