Theres been so many souls  
Theres been so many people  
Theyve been practising  
Its a vulnerable feeling that you might as well  
Be on a plane  
Beside you by my side  
The cat was on the table to infinity  
I love you in my life to be so tenderly inside of me  
And death is all around us like a swarm of bees  
Or maybe flies  
They crash before our very eyes  
One L  
Michle Michle  
Michle Michle Michle, Mi  
Michle Michle  
Michle Michle Michle, Mi  
I love you in real life  
And not just in this song thats coming out of me  
You fall around me in a perfect harmony  
So meant to be  
I bought a bag of cherries for you suddenly  
One L  
Michle Michle  
Michle Michle Michle, Mi  
Michle Michle  
Michle Michle Michle, Mi  
Theres been so many souls  
Theres been so many creatures  
Theyve been practising  
You come back as a butterfly and land on me  
So carefully  
I know Ive seen you somewhere in eternity  
Or paradise  
A flower growing in the ice  
One L  
Michle Michle,  
Michle Michle Michle, Mi  
Michle Michle  
Michle Michle Michle, Mi
