Floating in the space with you
I cannot feel my toes, but I believe in you
When you say we're ok
Tonight we are going to watch the stars burn

Don't harm yourself with dusty words
Make me feel not alone
Touch my soul, let me go
You make me feel like I'm home

Floating through the stars, alone
Wondering where did you go
Did you fly to the wrong side of the moon
I want to feel like this with you

Don't harm yourself with dusty words
Make me feel not alone
Touch my soul, let me go
You make me feel like I'm home
