Kalifornia  
Came to Kalifornia  
Kalifornia

When it's cold up North so I'm heading West  
I invest a little money and I spend the rest  
No more ...windbreakers, and sweat suits  
I'm only putting off the roof of my next coop  
Feel the breeze, this Palm trees put me at ease  
My tattoos, about the only time I'm wearing sleeves  
These girls naked like oak trees with no leaves  
They respect the young niggers more than the OGs  
House parties in big houses with dope views  
It's Hollywood, you'll never know what it might..  
Popping bottles and fucking models is old, too  
..rappers still running with my old crew  
The bright city lights got me hypnotized  
Flying down sunset mesmerized  
To much money to sit in one state  
But you'll never gonna get it to sit in one place

Chorus:  
Kalifornia  
This is why I came to Kalifornia  
Kalifornia  
Kalifornia  
This is why I came to Kalifornia  
Kalifornia

Big dreams on the screens and limousines  
Nothing tastes better than that Cally weed  
Sipping Malibus at Malibu with my team  
Holler at every girl that look at me  
So Kal, and the summer is like Heaven to me  
I'm screaming peace, but I still got my weapon on me  
I'm meeting... and Ferrari-es  
Show at the parties in ...with different hotties.  
Girl, that sun dress fit you so good  
Hanging out the sun roof, driving through your old  
hood  
Damn, I wish my enemies could see me now

Far away from gloomy days and dark clouds.  
And when hardly ever rains  
Sitting on the beach just sipping on champagne  
Damn, over here we don't play  
I was broke back home, over here I'm getting paid

Chorus:  
Kalifornia  
This is why I came to Kalifornia  
Kalifornia  
Kalifornia  
This is why I came to Kalifornia  
Kalifornia

I can't lie, I got money on my mind  
Searching for sunshine, I ain't here to waste time  
Loving all these women, but I don't chase them around  
Whenever I'm out of time, they fuck you with other  
guys.  
So, who can I trust? Is it love, or is it lust?  
I feel in love with the city when I was taking a bus  
Now I drive around with the top down windows up  
Stress free so I'm about to roll some weed...  
I get high, never need a n occasion  
Came to California just to find some inspiration  
Dedication so determined and disciplined  
Screaming at the top of my lungs, but they ain't  
listening  
They ... Cadillac photos  
Living out a low life is moving slow  
That's why I had to leave if you didn't know

Chorus:  
Kalifornia  
This is why I came to Kalifornia  
Kalifornia  
Kalifornia  
This is why I came to Kalifornia  
Kalifornia
