Song: Blink 182

He pauses shaving and he tells himself that he is the
bomb
She has her curlers set, her credit cards are paying the
funds
Hes not that old, Ive been told
A strong sexual goal
She goes out ever day
She goes every way oh yeah !
And they dont even care at all

Shes open waiting for more
And hes only looking to score
And its way too unhealthy
Often theyve typically
Been starved for attention before

She smokes a dozen and he doesnt seem to notice the
smell
He took the seat off his own bike because of the way
that it felt
He wants to bone, this I know
She is ready to blow

They go out every night
His pants are super tight oh yeah !
And they dont even care at all
