I am the bad one, distant and cruel one  
I am the dream that, keeps you running down  
With distraction, violent reaction  
Scars of my actions, watch me running out

Hell doesn't want them  
Hell doesn't need them  
Hell doesn't love them

The devil's rejects  
The devil's rejects

Yeah, I am the brains, some say insane  
Blood is the rain, that's what life's about  
In the great wide, head split and tongue tied  
Watch the sun die, when you're running out

Hell doesn't want them  
Hell doesn't need them  
Hell doesn't love them

The devil's rejects  
The devil's rejects

Yeah, I am the knuckle, bow down and buckle  
Hold your breath, your world is running down  
Live for the family, die with the family  
All is the family, my gun is running out

Hell doesn't want them  
Hell doesn't need them  
Hell doesn't love them

This world rejects them  
This world rejects them  
This world rejects them  
This world rejects them

The devil's rejects  
The devil's rejects
