Cut, cut the, cut, cut the mic range...

In, in the mix.

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Drop the bass.

Drop the bass.

Cut, cut the, cut, cut the mic range...

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Drop the bass.

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Everytime I think of you,  
It always seems I do,  
Everytime I have you,  
I thought you'd understood.

Cut the mic range,  
Drop the bass.
