I'm jealous of the world
The world is jealous of me
I see the way that it turns
Dumb and beautiful

I'm jealous of the sun
The way it shines on me
It's smiles from year to year
It's coming close now

And gravitate
And gravitate
And gravitate

I'm jealous of your legs
The color of your car
Your picture on the page
Dumb and beautiful

Oh, oh, oh

And gravitate
And gravitate
And gravitate

It's coming close now
It's getting close now
One, two, three, oh
Yeah, yeah, yeah, oh

And gravitate
Gravitate
And gravitate
Gravitate

And gravitate
And gravitate
And gravitate
