"How Fast"

Visit "[How Fast](#)" on MotoLyrics.com

Pull yourself from the room
Walk into the afternoon
Did you think you'd be
Immune to machines and perfume

And how fast can you run?
How fast can you run?
How fast can you run?

Crawl into another cave
All the things you tried to save
On your arm and it's engraved
That the world's come apart

And how fast can you run?
How fast can you run?
How fast can you run?

And how fast can you run?
How fast can you run?
How fast can you run?

Put yourself in another place
It's an illusion that we are safe
You've got such a pretty face
That the worlds come apart

And how fast can you run?
How fast can you run?
How fast can you run?

And how fast can you run?
How fast can you run?
How fast can you run?
