I get dragged by my hands  
I don't want this to end  
And can you tell from my face  
I want you to do it again?

You mystify me  
You mystify me  
And I'm all tangled up  
In black again, yeah

And when my eyes hit the ground  
That means I'm afraid to succeed  
But it's a high to be down  
And praying for this disease

You mystify me  
You mystify me  
And I'm all tangled up  
In black again

My hands are tied  
I'm mystified

I get dragged by my heart  
I don't want this to end  
It's a high to be down  
It's a high to be down, yeah

You mystify me  
You mystify me  
And I'm all tangled up  
In black again

My hands are tied  
I'm mystified, mystified
