Oh, oh, oh
Love has found it's way in our hearts today
Hey, love has found it's way in our hearts today
When your love is beautiful,
There is nothing, nothing that can go wrong!
When two hearts beat together is like an ever lasting sun
It's like an ever lasting sun!
The moon shines brighter over young girl
And it makes me feel so fine
I'm so thankful, so thankful baby that just make you
mine
I'm so thankful father God, I... mine

Love has found it's way in our hearts today, hey, hey
Love has found it's way in our hearts today!

Oh baby, please let me stay with you
Your love is so hard to resist
Let me feel your love is kindness and all your
tenderness
I said all your tenderness!
Oh baby, you make me so very happy
Even a blind man could see
That love could be so beautiful
That love was meant to be
I said that love was meant to be!

Love has found it's way in our hearts today hey, hey,
hey!
Love has found it's way in our hearts today

Oh baby, oh baby, you build me up, yeah
When your love is beautiful
There is nothing, nothing that can go wrong
When two hearts beat together is like an ever lasting
sun
The moon shine bright over youngsters
And it makes me feel
