Every morning I get up  
Beautiful as the Goddess  
Of love in enchanted mountain

Every night I go to bed  
Seductive as Yang Kuei-fei  
The imperial concubine

My slender waist and thighs  
Are exhausted and weak  
From a night of cloud dancing  
But my eyes are still lewd  
And my cheeks are flushed

My old wet nurse combs  
My cloud-like hair  
My lover, fragrant as incense

Adjusts my jade hairpins  
And draws on my silk stockings  
Over my feet and legs

Perfumed with orchids  
And once again we fall over  
Overwhelmed with passion
