In the world  
Is a town  
Small and proud

There I live  
And there I'll die  
Head in a cloud

I had dreams long ago  
Of the world I would surely know  
But it didn't turn out like that

In the world  
Is a lie  
Flying high

I thought you were mine  
But you were  
Never mine

I had dreams long ago  
Of the world I would surely know  
But it didn't turn out like that

In the world  
In the world

In the world  
Is a hill  
Filled with trees

From my door  
I can see  
Life is a breeze
