It may be what I wanna do
But I won't fall in lover with you
You are never gonna be mine
But I just love to see you

Old moon shining starlight
But I can't have my wish tonight
You are never gonna be mine
But I just love to see you

Can you hear me
Can you hear me
Can you hear me friend

No one nowhere can take your place
The happy sad look on your face
You are never gonna be mine
But I just love to see you
