Well I've seen some places
And seen lots of faces
Facing towards a distant light
Now I hear people laughing
And see people smiling
All over the news tonight
Oh I see new generations
Bringing new vibrations
They're skilled and they do things right
I see you and me
Loving to be free
So come along and make things bright

CHORUS:

Me all I've got
Is just a little singing now
If you wanna be part of it
Just hold your hands and
Shout out loud
Shout out loud
So we followed the traces
And we filled up the places
Looking for a better sight
Now we see strong bonding action
'Tween people of the nations

No matter if they're black, red or white
and we see people trying
Giving all their loving
Giving everything they've got
And there's you and me
Loving desperately
Open up your heart
and let's see some light
(CHORUS)

You say no way
Well just look around
Can't you see that love
Can bring us around
Me all I've got
Is just a little singing now
If you wanna be part of it
Just hold your hands and

Shout out loud
Shout out loud
Shout out loud
Shout out loud
No more tears
No more tears
Shout out loud
No more cries
Shout out loud
No more lies
No more lies
Shout out loud
