I never use to be one to check out whats ahead there.
I would only let tomorrow com and live for today.
But if you don't like your past,
you wont a diferent future.
I'll never make it without you and your so far...

..uuuu!! I get my self together!
..uuuu!! But i need you forever!
..uuuu!! I get my self together!
..uuuu!! But i need you.....

What goes around comes around never society man.
Heart is only one that i obey and hearings around.
Hiding away from the time drop the base and the line.
I stand above the dark to see the sign ovah your mind

..uuuu!! I get my self together!
..uuuu!! But i need you forever!
..uuuu!! I get my self together!
..uuuu!! I think of you.....

No need to worry to win the glory....
a govermant lies i allways disobay
the gun shots put me on the ground. i pray.
over the ocean. over the ocean
i got to tell you.....

..uuuu!! I get my self together!
..uuuu!! But i need you forever!
..uuuu!! I get my self together!
..uuuu!! I think of you.....
