Get away Babylon don't look at me
I man a ready to confront search and you see
Waitin in the middle a segregation wait for an end
Equality is worth so much more than you can spend
I & I words a become
I & I life and perspection
I & I know I behold I life
Babylon you no more in charge way you react
You will never learn to treat a man with love and respest
Lyn' and bribin with blood money won't get you far
So don't ask why normal humanity defeat you in war
I & I hope a become
I & I light of salvation
I & I know I can hold I life
